## THE WONDERS

Of Science—Lung Troubles and Consumption Can be Cured.  
An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchial, throat, lung and chest diseases, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send three free bottles (all different) of his New Discoveries to any afflicted reader of the Mt. STERLING ADVOCATE writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use. He considers it a simple profession, and is suffering humanity to donate a trial of his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude" filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchial, chest and lung troubles lead to consumption, which, uninterrupted means speedy and certain death.

Simply write to T. A. Slocum, M. C., 98 Pine street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the ADVOCATE. 51-ff

Twelve common heifers brought \$19.50 and six others, weight about 500-lb., sold for \$18.50; mitch cows brought from \$25 to \$35; a 650-lb. bull sold for \$30. No sheep and but few people around the town.—Winchester Democrat.

Zade Hodgkin bought of George Sewell 60 hogs at 4¢ to be delivered June 1st; weight 200 lbs. . . . Mr. J. Hildreth, of the Pine Grove neighborhood, sold his lambs, about 100 in number, to Downing & Christian at 5¢ for 15th or 20th of June delivery. Mr. Hildreth had a prime lot of lambs last season and this year's crop is equally as good. He finds that it is just as easy to raise good stock and costs no more than inferior breeds.—Winchester Democrat.

Potts & Duerson's wheat shipped to Chicago did in grade as No. 2, and they received \$1.17 per bushel, instead of \$1.00 as reported last week. . . . Mr. Franklin Milton came up from Perry yesterday and says wheat between here and Valley View looks as well as he ever saw it this time of the year. . . . The Chaplain continued: "We pray Thee still to spare her life. Grant her health. Maintain the eminence of her sovereignty. And when the time of her departure hence shall come, may she go in peace, comfort, and joy. Knit the hearts of the two peoples who speak the English tongue more and more strongly together, that we may work out the mighty problem of the highest civilization for the whole earth."

The Producers Get Nothing.

The Louisville Dispatch tells the tale truthfully when it says the gold standard newspapers are trying to make the farmers believe that they reap the profit on wheat, when as a matter of fact it had left the hands of the farmer before there was any material advance. Those who have profited most by the advance in wheat are the speculators in Chicago and other business centers who were able to get from the banks sufficient money to corner the market. — Bulletin.

The train cars in Swedish cities rarely stop for passengers. Men and women there are quite agile and expert in jumping on and off while the cars are in motion.

## The Mosquito Fleet.

The new Board on Auxiliary Cruisers, of which Admiral Erbile is President, began on Wednesday, says the New York Sun, the inspection of seventy-three tugs, yachts, and other vessels, with a view to recommending them to the Navy Department for the Mosquito fleet. The board of which Capt. Frederick Rogers was the President made a list of eighty-six vessels which had been offered to them for auxiliary cruisers. Of this number thirteen have been purchased, Admiral Erbile hopes to get enough more to complete the patrol fleet of the Atlantic and Gulf coasts. He is allowed to acquire eighty-five vessels in all for this service, and he has already some thing more than a dozen.

Of Montgomery County, as a candidate for

trict, subject to the action of the Democratic party.A. H. Stewart, Deputy Warden  
of the penitentiary at Frankfort,  
resigned on Thursday. He went  
to Knott county where he will  
raise a company of volunteers to go  
in Congressman Colson's regi-  
ment. Probably he realized that  
soon he would lose his position,  
and was willing to seek glory and  
a salary in fighting the Spaniards.The will of Mrs. Dr. Logan,  
who recently died in Lexington,  
was probated last week. Among  
other bequests she left to the Mid-  
way Orphan School \$6,000 and to  
the College of Bible, at Lexington, on  
property valued at \$8,000. She  
was generous in life and in dying  
has placed her wealth where,  
through generations, blessings will  
come to hundreds of deserving and  
aspiring young men and women.  
Her example is worthy of imitation.  
Many will call her blessed.The Second Regiment of Ken-  
tucky Volunteer Infantry left Lex-  
ington Wednesday afternoon for  
Chickamauga. There were very  
many close friends of the soldiers  
at Lexington to bid them a final  
farewell before they started off to  
the army. Many tears were shed,  
and to the credit of the manly set  
of men who will give a good ac-  
count of themselves in the coming  
hours and scenes that try men's  
souls, be it said they were not all  
shed by women. For a soldier  
that will fight till the last drop of  
his heart's red blood is spilled,  
commend us to the man whose af-  
fections are so strong as to force a  
tear to the eye when he parts with  
his loved ones.The Marquis of Salisbury, the  
great political opponent of Mr.  
Gladstone, in a magnificent tribute,  
paid the "grand old man", whose  
life work well done, so lately laid  
him down to rest, said: "Mr.  
Gladstone was ever guided in all  
his efforts by a lofty moral ideal.  
The deceased will be remembered  
not so much for his political work  
as for the great example, hardly  
paralleled in history, of the great  
Christian statesman."Gladstone won a place in West-  
minster, but if those who have  
passed over the river may look  
back from the thither shore, he  
would rather have deserved Salis-  
bury's tribute than have secured a  
resting place among the famous  
abbey's galaxy of immortals.

## FILL UP THE RANKS.

Many of the States desire the  
privilege of recruiting as many  
new regiments as possible under  
the second call of the President  
for volunteers. The authorities at  
Washington think it wiser to fill  
the ranks of the regiments already  
recruited to their maximum  
strength. They were recruited at  
the minimum number. In reply  
to the Secretary of War theGovernors of all the States prom-  
ise the government all the troops  
wanted. They only ask for an  
opportunity to let the people  
show how ready they are to serve  
the country by volunteering in the  
army. Kentucky under the sec-  
ond call will have but one new  
regiment.The election of trustees for Mt.  
Sterling's Public Graded School  
which comes off next Saturday,  
June 4th, deserves more than  
a passing notice by our citizens.  
The people of Mt. Sterling have a  
deep interest in this school. As  
at present conducted it is an institu-  
tion of which the city may well  
be proud. Let its management  
pass into the hands of an ine-  
ficient or indifferent board of trustees  
and there will be a very different  
state of affairs. The present board  
is an exceptionally efficient one.  
We very seriously doubt if there  
can be found the same number of  
men in the city who can give such  
general satisfaction and such faithful  
service to the public as this  
board has done.While we have not heard that  
the board now in office is seeking  
a re-election we are firmly per-  
suaded that the educational interest  
of the city will not be conserv-  
ed by a change. Under the adminis-  
tration of the present board and  
the very efficient corps of teachers  
that have been in charge, the in-  
stitution has been so built up that  
the people of Mt. Sterling can  
point with pride to their Public  
Graded School. Let us see to it  
that nothing is done to lower the  
standard of education in our midst.Congressman T. Y. Fitzpatrick  
was in the city on Saturday and  
Monday, having spent Sunday in  
Franklin county with his wife and  
daughter, who are visiting kinsfolk.  
He is in daily communication with  
Washington so that he can return  
as soon as his presence is required  
in consideration of any important  
measure that may come before the  
House. He is deeply grateful to  
his Montgomery friends for their  
past support, and trusts that his  
course merits their approval and  
support, after they have con-  
sidered the claims of Mr. Kinsol-  
ving, our county man.He has spent several days in  
different sections of the district re-  
newing his acquaintance with the  
voters, and unless called to Wash-  
ington will remain in the district  
until after the convention. As  
has been previously announced  
precinct mass meetings will be  
held on Thursday, June 16, the  
county meeting on Saturday, June  
18, and the district convention at  
West Liberty on Thursday, June  
23.Joseph Earlywine, of Paris, has  
been selected as stenographer for  
Gov. Bradley. His predecessor,  
Joseph Simcox, preferred military  
service as Adjutant of Third regi-  
ment of volunteers. Success to  
our Kentucky office holders who  
go forth to war.

## His Old Black Mammy.

The Lexington Leader tells the following  
pathetic incident that occurred at  
Burlin when the train bearing the  
Second Regiment of Kentucky Volun-  
teers stopped there on its way to  
Chickamauga. It says:"The most pathetic incident of the  
entire route occurred here, when an  
aged colored woman feebly made her  
way through the crowd and reached  
Col. Gaither's hand. 'Good-bye,'she cried as the Colonel greeted her  
kindly with 'Why, Aunt Harriet, I'll  
be back to see you after the war.'"I will never live to see you again,"  
sobbed the old woman, and she was  
led away by a younger person, crying  
as if her heart would break. Col.  
Gaither was perceptibly affected. He  
turned and said: 'Bless her dear old  
heart. She was my nurse in child-  
hood.'We have just received a new line

### A Dutiful Son.

Governor Bradley came to Lexington Tuesday to deliver in person to the officers of the Second Regiment their commissions. The hour for the presentation was set for noon, but it was found necessary to change the hour to 3 o'clock. When Maj. Owen (ex-Congressman W. C. Owen) heard of the change of hour he asked that Governor Bradley leave his commission with Col. Gaither, as he meant to go to Georgetown at that hour in order to bid his aged mother a final good-bye before he left for active service. Some of the officers begged Maj. Owen to stay and take his commission from the Governor's hands. He replied that he would not fail to keep his engagement with his mother if it cost him his commission to do it. Governor Bradley hearing of Major Owen's desire to see his mother promptly and gladly changed the hour for presentation to suit Major Owen's convenience.

### This Mother Gives Two Boys to the Service.

Mrs. W. M. Beckner had a lively experience Monday growing out of the war. She went to Lexington in the morning to bid her son, Seth, who is First Lieutenant of Company C, Second Regiment, Kentucky Volunteer Infantry, good-bye, as he was to leave for the front Wednesday, and coming home on the noon train, left at night for Annapolis, to say farewell to her son, Taliaferro, who is no doubt by this time on his way to take part in the struggle as a naval officer. Nobody could give her boys more heart than does Mrs. Beckner. They are stout and healthy, have been trained to be men, and have enjoyed many blessings, of which they would not be worthy, as she thinks, if not willing to do their part when needed. She comes of a family in which there have been many gallant soldiers—Winchester Sun.

Our Indian friends were never regarded as being fired with a great amount of patriotism, but the reports that have been coming in lately from the different reservations tell a different story. They are all to the effect that the Indians are not only willing but most anxious to fight under the banner of the Great Father at Washington. Five hundred Navajo Indians have offered their services, while the Seminoles, Cherokees and other tribes are also eager to get a rap at the Spaniards. One who lives among the Indians in the West says that they have a score against the dows for letting Columbus come over here, conquer their ancestors and take this country from them, and they think the present a good time to settle it.

Child Was Nervous and Irritable and Had No Appetite

Hood's Sarsaparilla Has Changed All This—*Scrofula Cured.*

"Hood's Sarsaparilla has had a wonderful effect on my little daughter. She is five years old and has been very delicate all her life. She is nervous and irritable and had no appetite. A large lump would appear on her neck every few weeks and then would disappear, leaving her very weak. We concluded to give her Hood's Sarsaparilla. At that time there was no sarsaparilla in the market. When taken one bottle it had disappeared altogether, and she seemed like a different child. Instead of being cross and fretful she goes about laughing and singing as merrily as any child. We are very grateful to Hood's Sarsaparilla. Miss Janie Jane, Bardstown, Kentucky.

Clay & Woodford, in the Thoroughbred Record, say: "Our experience in spaying five fillies last year has induced us to still further experiment in that direction. We last week spayed twenty yearlings and one two year-old and up to the present time have not lost a single one. We believe if the breeders would adopt the system of spaying 75 per cent of their fillies, leaving only good individuals and those coming from the best racing families that in a few years we would have the grandest lot of brood mares in the world, and worth five times what they are now. This would give us an improved class of race horses and better prices all around. From experience we believe that spayed fillies have more stamina and train better than those entire."

**IT IS NOT A STRATEGY BOARD.**

Senator Long Says His Advisers Do Not Hamper Sampson.

Washington, May 24.—Secretary Long talked interestingly to-day with a Sun reporter about the much criticised body of officers, the so-called Naval Strategy Board, which certain newspapers here and abroad have presumed to be intrusted with the sole conduct of the naval campaign. The attention of Mr. Long was called to a statement in the London Times that it would be wise to leave the direction of operations to naval commanders instead of a board in Washington.

"That shows how little the winter is on the subject," he said. "That is exactly what we are doing—leaving the conduct of operations to commanding officers. The freedom of action given to the commanders of squadrons was shown in the orders to Admiral Dewey, which have been published. He was allowed to make his own plans. A similar case is that of the movement against Porto Rico by Admiral Sampson. He was allowed to carry out ideas of his own in attacking San Juan."

Mr. Long explained that the term Strategy Board was erroneous. The name of this advisory body, was, he said, the War Board. It does not undertake to arrange out and dried programmes for naval commanders to follow, for the department realizes that an officer on the ground is much better fitted to do his work well without being hampered by advice from others not on the ground.

The War Board is not a formal body. It has no set rules and regulations, and is not composed of a certain number of men. Its members are officers in whose judgment and ability the Secretary of the Navy has confidence, and they act merely as advisers. The principal function of the board is to collect information about the enemy and furnish it to the commanders of the American squadrons on similar vessels.—New York Sun.

**Deafness Cannot Be Cured**

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

**Oil for Manila.**

The steamship Australia, City of Peking and City of Sidney with 25,000 troops aboard sailed from San Francisco Wednesday for Manila. The ships are due at Manila about June 20. The expedition is under command of Brig. Gen. Anderson, consist of four companies of regulars under command of Maj. Robe; the First regiment California volunteers, Col. Smith; the First regiment Oregon volunteers, Col. Summers; a battalion of 500 heavy artillery, Maj. Gary; about 500 sailors and eleven naval officers.

The fleet is loaded with supplies to last a year, and carries a big cargo of ammunition and naval stores for Admiral Dewey's fleet at Manila. It is not probable that any more troops will be despatched before another week. The three big ships will re-coal at Honolulu and probably without waiting for the Charleston, which will not steam above ten knots an hour in order to save coal, they will hurry on to Manila.

**WE HONORED THE QUEEN.**

The News Suggests That England Reciprocate on the Fourth of July.

London, May 25.—The morning papers here give prominence to dispatches from the United States telling of the celebrations there in honor of the Queen's birthday. The Daily News says:

"Certainly some opportunity should be taken to reciprocate these demonstrations of good will. This will naturally occur on the Fourth of July."

The full intensity of living is reached only by the perfectly healthy. Sickness discounts the capacity for enjoyment. If his body is all out of order and run down, he will not be able to enjoy anything, no matter how full of enjoyment it may be for other people. If he is just a little bit out of order, if he is not sick, but just doesn't feel right," he will only be able to enjoy things in a half-hearted sort of way. The nearer he is to being perfectly well, the nearer will his capacity for enjoyment be perfect. If this condition doesn't exist, something ought to be done. That means nine cases in ten the use of Dr. Pierce's Golden Medical Discovery. It works directly on the digestive organs, and on the blood and through these on every tissue of the body. An aeronaut says that there is the same difference in the air at the earth's surface and at an altitude of half a mile that there is between water in a muddy puddle and the purest spring water. Before the departure of the Second Regiment from Lexington to Chickamauga Deputy Marshal McCarty served a writ of habeas corpus on Col. Gaither for possession of George England, of the Lebanon company, an 18-year-old boy. Col. Gaither referred the marshal to the war department, and said the boy was not under duress, but if he left he might be treated as a deserter. The boy refused to desert and left with his company. His parents secured the writ from Judge Barr.

Our trade with Japan grew very rapidly last year—in fact, more rapidly in proportion than that of any other nation. The gain which the United States has made over other parts of the world in supplying Japan is shown by the fact that the imports from the United States increased 65 per cent. in 1897 over 1896, while in total imports from all parts of the world the increase of 1897 over 1896 was only 28 per cent. The gain of Great Britain, the chief competitor was only about 10 per cent.

The Ethnology of Kissine.

The kiss was unknown, I think, among the aboriginal tribes of America and of central Africa. From the most ancient times, however, it has been known to the Asiatic and European races. The Latins divided it into three forms—the ordinary kiss, the basium and the suavium, the first being the kiss of friendship and respect, the second of chremancy and the third of love. The Semites always knew the kiss, and Job speaks of it as part of the sacred rites as it is today in the Roman church.

The Malabar kiss, however, is not the same as that which prevails with us. In it the lips do not touch the surface of the person kissed.

The breath is drawn slowly through the nostrils, and the act ends with a slight smack of the lips.

The Chinese consider our mode of kissing full of coarse suggestiveness, and our writers regard their method with equal disdain.

Derwits and other neutrals have attempted to trace the kiss to the act of the lower animals who seize their prey with their teeth, etc. An interesting recent study of the subject is by M. Puel d'Endry, in "The Bulletin" of the Paris Anthropological Society, volume 8, No. 2—Dr. Daniel G. Brinton in Science.

The big man in the hand of former days in the Marine back in his infancy was the man who marched in the front and played a claque of bells which was rigged up on a long pole. Simple Language.

Simple language is on all accounts preferable to high sounding words when ordinary matters are discussed.

We wish that young people could be taught that it does not add to the "status" of a man to call it a "residence," or a "chateau" or even a "mansion" in a word like "the sacred edifice;" that it is no more genteel to say "retire" than to go to bed; that the garment so covered with side plattings and so quickly frayed out along the pavement is really a gown and not a "promenade costume;" that it need not bring a blush to the fair cheek of even Mr. Popes' young person to say "leg instead of "limb," when leg is meant; and that there are well founded objections to the use of "nicely" as an adjective describing one's health.—New Orleans Times-Democrat.

A little boy asked for a bottle of "get up in the morning as fast as you can," the druggist recognized a house hold name for DeWitt's Little Early Risers and gave him a bottle of those famous little pills for constipation, sick headache, liver and stomach troubles.

The Record Breaking Trip of the Famous Old Red Jacket.

In Maine they dwell with pride upon the performance of the Red Jacket, built in Rockland in 1858 by Deacon George Thomas. The Red Jacket made the run from New York to Liverpool in 13 days 1 hour and 25 minutes in the month of January, 1854. This was the best trip up to that time, and it probably never has been beaten, although a faster trip, by a few hours, was claimed for the Boston ship Lightning. When the Red Jacket started on her trip, the record was held by the ship Sovereign of the Seas, built in East Boston by Donald McKay—18 days 19 hours.

The Red Jacket was 234 feet keel, 44 feet 6 inches beam, 16 feet 10 inches hold, 8 feet between decks, 226 feet over all and measured 2,500 tons, being the largest ship built in America at that time. There was great excitement, both in New York and in Liverpool, over the first trip of the Red Jacket, for it was known all over the maritime world that she had been built expressly to beat the record of the Sovereign of the Seas.

She was also to set a mark for the Live Yankee, a ship built at Rockland about the same time, and for several others. Large amounts of money were wagered on the result of her passage.

The Live Yankee had a hard passage and came nowhere near the Red Jacket's time.

As illustrating the absurdness of Deacon Thomas, it is related that, hearing that several other builders were about to construct ships on the same lines as the Red Jacket, he enlarged her molds slightly, putting in five extra frames amidships. This probably helped the speed of the Red Jacket. At any rate, in that respect she differed from her rivals.

A Rockland man, who was in Liverpool when the Red Jacket arrived there, gives an interesting account of her triumphant entry into the great English seaport. The excitement was intense, especially less than in New York. A day before the Yankee clipper was expected to arrive the American steamer came in and re-visited the ship as just outside, and in a few hours the Red Jacket appeared at the harbor's mouth. Hundreds of cheering sailors had boarded her, and two tugs had lines to the ship, although her speed was so great that they could not hold the heavy vessel. She came flying up the harbor with every stitch drawing in a third northward.

Stirring Them Up.

Forwards, the organ of the Social Democracy, published in Berlin, Germany, says:

"Into the putrid swamps of European politics has been cast a stone, and the turbid, slimy waters spout up.

"The great Republic on yonder side of the ocean, without castles, nobles or a standing army, has suddenly sprung out of her position of neutrality to Europe, and one European State which has slaughtered myriads of men wrestling for freedom is undone.

"Old Europe, in consequence, is shaken to her foundations.

"It is a new power—not a militarist, no fleet, yet a mighty, an overwhelmingly mighty, elemental power.

"In Asia the same phenomenon has appeared. The new power has become the 'balance of the scales,'"

## THE SPANISH FLEET

IS LOCATED IN THE HARBOR OF

SANTIAGO.

Captain Sigbee of the St. Paul

Puts All Doubts at Rest.

He Steamed in Close Enough to

Identify the Spanish Fleet.

SCHLEY IS WAITING OUTSIDE.

The following special cable message as taken from the Courier-Journal gives the latest news from the front:

Mole St. Nicholas, Hayti, May 29—I can state positively that Commodore Schley has part, if not all, of the Spanish fleet bottled up in Santiago Harbor.

This has been suspected for several days, but it was not definitely known, until this morning, when Capt. Sigbee, of the St. Paul, who has been cruising off the harbor for the past week, steamed close enough to distinctly see two cruisers of the Vizcaya class and two torpedo boat destroyers lying just inside the mouth of the harbor. It is believed that the rest of Cervera's squadron is also there.

The St. Paul has been watching Santiago for eight days. Capt. Sigbee thinks two Spanish torpedo boat destroyers ventured out of the harbor Saturday night to attack the St. Paul, but, anticipating such a move, he changed his position every night in order that they could not locate him.

To-day Commodore Schley took a position with the entire squadron to prevent the escape of Cervera. He hopes the dows will come out and fight. The opposing fleets are of about equal strength. The Herald and Courier-Journal tug passed Rear Admiral Sampson's fleet of eighteen vessels fifteen miles east of Cardenas, Friday at 3 o'clock in the afternoon, headed west. It is probable Admiral Cervera will remain inside and postpone an engagement indefinitely, but the blockade will be effectively maintained.

## Schley Cables He Has the Enemy

Washington, May 30.—The Navy Department has just received, at 12:30 o'clock this (Monday) morning, a dispatch from Commodore Schley stating that the Spanish fleet is in the Bay of Santiago de Cuba, and that he has seen and recognized the vessels.

There seems to be no longer any doubt that the Spanish Admiral, Cervera, is bottled up in Santiago harbor. The Navy Department has received official information that Commodore Schley is before Santiago and that the

Spanish fleet or at least the greater part of it is within the harbor.

Rear Admiral Sampson is off the north coast of Cuba with his fleet.

The general orders which have been issued for the government of the army while in the field are identical with those issued April 24, 1865. They were adopted by both belligerents in the Franco-Prussian war, and were the basis upon which a general European conference afterward acted in drawing an agreement on this subject. The instructions make twenty-four page of printed and cover almost every conceivable feature of military conduct and usage in time of war and a definition of many of the terms used.

The health of the troops composing the big army of volunteers now in camp at Chickamauga is remarkable, good, considering the conditions. Illinois, Minnesota and Wisconsin troops suffer most, though as a rule their ailments are not of a serious character. The National Committee, organized in Chattanooga, will take charge of and distribute all supplies contributed for the relief of the sick and needy soldiers.

Confirmation is had of the arrival of the Spanish torpedo-boat destroyer Tercor at San Juan, Porto Rico, from Fort de France, Martinique.

The British police at Hong Kong have seized a quantity of stores intended for the United States auxiliary cruiser Zafiro. Admiral Dewey is said to be fortifying Corregidor Island and minding the channel.

Speaker Reed is said to be ready to give the Hawaiian annexation resolutions full sway in the House as soon as they pass the Senate, but is opposed to sending them first through the House.

About 50,000 of the second call volunteers will be used to fill out deficient regiments organized under the first call. The remaining 25,000 will be organized into regiments and distributed among the States in the same proportion as under the first call.

The cruiser Columbia put into New York harbor Sunday with a great jagged hole in her starboard side. She had been in a collision with the British steamer Foscari, which was sunk. The Columbia rescued the captain and all twenty-one of the merchantman's crew.

It is believed that the Revenue Bill will pass the Senate the last of this week or the first of next practically as it passed the House. It will probably provide for a \$300,000,000 bond issue and \$100,000,000 in time certificates.

Mr. Isa C. Prichard, of Boston, but who is at present located here, received a letter from his brother, who is with the Second Kentucky in camp at Chickamauga, saying that orders had been issued forbidding the men to buy provisions from private parties. The suspicion has been aroused that some parties, working in the interest of the Spaniards are trying to poison the men in camp. Surely hemp is neither so scarce nor so high in price but that Uncle Sam can purchase a few bales for his soldier boys to use on the suspects.

These little directions tell us which women subject are best suited to ten to some women, and the health and beauty condition of the subject. The average woman's general practice does not half satisfy her. He prescribes some superfluous medicine for headache or dyspepsia or liver trouble without difficulty.

A woman uses this when the trouble, but is healthy, under the mortifying and generally less "complaints," and when she is not in a fair more sensible alternative: the physician's delicate ness of this nature should seek the aid of that marvelous "Favorite Prescription," which is the secret of the great physician of the Invalids, Dr. Schley.

In any case, it is to be promptly cured by this great "Prescription" special advice for inexpensive home-remedies which the local practitioner is almost sure to insist, but there is a far more sensible alternative: the physician's delicate ness of this nature should seek the aid of that marvelous "Favorite Prescription," which is the secret of the great physician of the Invalids, Dr. Schley.
